

OM SRI SAI RAM

SCENE 5 – RADIO SAI INTERVIEW

Scene 5: Radio Sai

When we are with God, our ambitions get sublimated into nobler aspirations. Sudheer wants to become a doctor and serve in this very hospital. Now he wants to dedicate his life to the Lord who gave him life. But will this dream continue to elude him?

Let us for a brief moment go over the seven seas to the United States of America where another story is unfolding. Another piece of clay is getting moulded into a master-piece. In spite of having a thriving practice, Dr. Ashutosh, does not have what we all want the most – peace of mind. He left his country years ago in pursuit of wealth, name and fame, all of which he thought would bring him happiness. But his quest continues until this day...

Bishu: (to the doctor) Sai Ram Doctor

Doctor: Sai Ram Bishu.

Bishu: Can we speak to that boy?

Doctor: Oh Sure! His story is very interesting.

Sunil: Thank you sir.

(They come to the boy)

Bishu: Sairam brother. How are you this morning?

Sudheer: (wondering who these people are) Fine.

Sunil: My name is Sunil.

Bishu: and you can call me Bishu. We are from Radio Sai Global Harmony. We have come here just for a chat. Is that ok with you?

(He nods in agreement)

Sunil: Brother, what is your name?

Sudheer: I am Sudheer

Bishu: from...

Sudheer: I am from Anandgram.

Sunil: Did you come here with your parents?

Sudheer: I came here with my father. I lost my mother when I was five years old. That brother, Sai Giridhar brought me here when some students, came to our home and told us about this beautiful hospital. They even paid for our journey.

Bishu: Sudheer, let me tell you, you have been very brave to undergo a major surgery. How do you feel now?

Sudheer: I have not seen heaven, but I can tell you what it feels like to be there; I have been drenched in the deluge of love showered by each and every person here; right from doctor uncle, to sisters, to the sevadal volunteers. If they are so loving, what then must be the love of their God! (Pointing towards Bhagawan's photo) Brother, I am overwhelmed. Can I ever repay my debt of gratitude to Swami?

Asst. Doctor: Swami says that all that He wants is just your love and faith in Him.

Sudheer: This will be the most cherished experience of my life. I have always dreamt to become a doctor. I know my father cannot afford this dream of mine; he is just a village-postman. But to dream is not expensive; isn't it brother?

Bishu: No Sudheer, not at all.

Sudheer: The love that I have received from the doctors here has only strengthened my will to become a doctor somehow, and serve in this hospital itself. Swami has touched my heart and I too want to heal hearts by becoming a doctor.

Sunil: Why not, Sudheer? You will become a doctor. Your intentions are very noble and Swami will surely help you realize your dream. We will all pray for you.

Sudheer: Brother I feel so happy speaking to you all.

Bishu: Ok Sudheer, Can you tell us how it all began?

Sudheer: It was in our college where our Principal sir.....
